Project Code: IDEA0001 DK  
Project Name: People's Perception Index Pilot  
Prepared for: Seema Shah, International IDEA  
Interviews: 1500  
Field Period: July 28, 2023 – August 31, 2023  
Project Manager: Melissa Moore, [melissa.moore@yougov.com](mailto:melissa.moore@yougov.com)  
=====

YouGov interviewed adults aged 18+ general population in Denmark(1063), Italy(1124), Lithuania(1051), Romania(1077), South Korea(1064) and adults aged 18+ Internet users populations in Colombia(1135), Taiwan(1069). The respondents from each country were then matched down to a sample of 1000 to produce the final dataset. The respondents were matched to a general population sampling frame(internet users sampling frame for Colombia and Taiwan) on gender, age and education.

The frame was constructed from the following source:  
Colombia, Taiwan: general population frame and internet users frame are from the same frame source.

South Korea – Pew 2019  
Colombia – LAPOP 2021  
Denmark, Italy, Lithuania, Romania – Eurobarometer 2022  
Taiwan – Asian Barometer Survey Wave 5

The matched cases from each country were weighted to the general population sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender and education. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles.

The weights for each country were then post-stratified on turnout, vote choice, gender, age, and education to the general population sampling frame. The final weights were produced for Denmark, Italy, Lithuania, Romania and South Korea.

For Colombia and Taiwan, the weights for each country were then post-stratified on gender, age, and education to internet users sampling frame to produce the final weights.

Count	Code	Label
-----	-----	-----
80	1	No, not at all. The elections were fundamentally flawed and the official results had little if anything to do with the 'will of the people' (i.e., who became president or who won the legislative majority)
137	2	Not really. While the elections allowed for some competition, the irregularities in the end affected the outcome of the election
219	3	It's complicated. There was substantial competition and freedom of participation but there were also significant irregularities. It is hard to determine whether the irregularities affected the outcome or not
174	4	Yes, somewhat. There were deficiencies and some degree of fraud and irregularity but these did not in the end affect the outcome (as defined above)
890	5	Yes. There was some amount of human error and some logistical restrictions but these were largely unintentional and without significant consequences
